

Location: Kultural centre Trebinje

Date: 20.March 2024.

Time: 12.00 p.m

INVITATION

Dear Sir/ Madam,

We kindly invite you to contribute to achievement of mission and goals of the 5th Summit on Energy Future "**SET Trebinje 2024**" organized by the Energy Summit - SET d.o.o. Trebinje and MH Elektroprivreda Republike Srpske under the motto "**The Western Balkans' Energy Connectivity**".

The Summit on Energy Future will be organized under the auspices of the Ministry of Foreign Trade and Economic Relations of Bosnia and Herzegovina, the Government of the Republic of Srpska, the Ministry of Energy and Mining and the Ministry of Economy and Entrepreneurship in the Government of the Republic of Srpska. It will take place **from 20 to 22 March 2024**, at the Cultural Center Trebinje, Trg palih boraca 1, Trebinje.

The increasing share of renewable energy sources in electricity production and their impact on the energy system place greater demands on the accelerated development of the system itself. At the same time, due to the even higher decentralized production of electricity in the immediate vicinity of consumers or with consumers themselves, it is becoming difficult for suppliers to meet the ever-changing supply and demand. In this regard, concepts and technical solutions such as energy storage, micro grids, demand adjustment and energy efficiency measures are growingly coming to the fore.

During the three-day event, the Summit participants will have the opportunity to hear almost 50 regional energy industry leaders, who will take part in seven specific panels. The Summit will bring together literally all relevant energy sector representatives in the region, leading people of domestic companies and institutions that shape the industry, business leaders and energy policy makers, as well as top domestic and international experts in the field of energy.

The Energy Summit Trebinje is an excellent opportunity for cooperation between public energy companies, government bodies and technology providers to exchange information and know-how in order to understand the energy future and perceive the world's direction in terms of sustainability.

SET offers market entry for any company whose interests are to work and operate in the renewable energy and sustainability sector in the region. We also offer a presentation option where you can showcase and highlight your achievements, technologies, services and solutions

The Summit registration can be completed onsite at the following link: <https://setrebinje.com/prijava-za-samit>. Registration is open from 1 December 2023 to 15 March 2024.

Any question for additional information and assistance during registration can be addressed to e-mail: podrska@setrebinje.com or via phone numbers: +387 59 222 536, +387 66 237 788. All information and agenda of the upcoming Summit are available at <https://setrebinje.com/>

Sincerely,

Director
Aleksandar Branković
